

Cloud Booth | Opportunities

Exhibitors actively initiate intentions

The exhibitor goes to the “Booth” background and clicks “Opportunities”.

The exhibitor views the information of buyers who **favorite the booth**.

- If a buyer clicks “Favorite booth” or “Favorite exhibit” while browsing the booth or exhibits, the buyer's information will be displayed in this list.
- The buyer's view frequency, view duration and contact information will also be displayed synchronously, so that the exhibitor can understand the buyer's interest and follow up the subsequent business opportunities.

The screenshot displays the 'Favorites Management' interface. The sidebar on the left includes options like 'Personnel Information', 'Conferences', 'Exhibitions', and 'Track Opportunities'. The main content area shows 'Buyer favoriting the booth' and 'Buyer favoriting the exhibit' tabs, with a real-time online number of booths: 0 people. Below the tabs are search filters for 'User Name', 'Company Name', and 'User Identity'. A red box highlights the 'View Frequency' and 'View Duration' filters, both set to 'All'. A 'Search' button and a 'Reset' button are also visible. Below the filters is a table with the following data:

User Name	User Identity	Company Name	Contact Name	Contact Number	View Frequency	View Duration	Favoriting Date	Last View Date
admin	Enterprise	参会公司			0	0min	2020-07-10	2020-07-10
cp_test_19	Enterprise	cp_test_19_name	测试19	17868681919		0min	2020-07-03	

At the bottom right, there is a pagination control showing '1' of '10' records, with '2 records' displayed.
